

ANNUAL INDEX VOLUME 20 1986

PROFESSIONAL COURSES

- Computer Principles & Practice Part 9—Milton H. Aronson (119)131
- Dimensional Metrology, Part 1—History of Measurement Standards (115)133
- Dimensional Metrology, Part 2—Gage Blocks, David O'Brien (116)138
- Dimensional Metrology, Part 3—Interferometers, David O'Brien (117)134
- Dimensional Metrology, Part 4—Screw Threads, David O'Brien (118)141
- Dimensional Metrology, Part 4b—Screw-Thread Measurements By Attributes and Variables, David O'Brien (119)120
- Dimensional Metrology, Part 5—Laser Gaging, D. R. O'Brien (120)102
- Forth, Part 1—David Penz, P.E. (115)143
- Forth, Part 2—The Word, David Penz, P.E. (116)134
- Forth, Part 3—Forth-83 Standard Definitions, David Penz (117)144
- Forth, Part 4—Defining Vs. Executing The Word, David Penz, P.E. (119)136
- Forth, Part 5—The Stack, David Penz, P.E. (120)126
- Personal Computing, Part 5—Comparing the 8080, Z80 and 6800 Microprocessors, Milton H. Aronson (115)150
- Personal Computing, Part 6—The Operating System, Milton H. Aronson (116)125
- Personal Computing, Part 7—CP/M File Names, Built-in Commands and Transient Commands, Milton H. Aronson (117)138
- Personal Computing, Part 8—Getting Started, Milton H. Aronson (118)146
- Personal Computing, Part 10—Cursor Control, Milton H. Aronson (120)122
- Process Control, Part 12—Control System Analysis, Dr. Clarence De Silva, Carnegie-Mellon Univ. (119)118

- Simplified Passive LC Filter Design, Edward E. Wetherhold (117)151
- Ten Basic Concepts For Science and Engineering, Milton H. Aronson (116)144
- Ten Basic Concepts For Science And Engineering, Milton H. Aronson (117)148
- Ten Basic Concepts For Science And Engineering, Part 3—The Log Concept, Milton H. Aronson (118)144
- 10 Basic Concepts For Science And Engineering, Concept 9—Binary Numbers, Milton H. Aronson (119)138
- 10 Basic Concepts For Science And Engineering Concept 10—Standard Deviation, Milton H. Aronson (120)114

ARTICLES

- Achieving Provable Accuracy in Dead-weight Pressure Testers, R. C. Evans, Budenberg Gauge Company, Ltd. (120)139
- Analog Recording With Dot-Matrix Printing, Robert W. Coryell, Soltec Corporation (116)155
- Automated Testing, Chester Williams, Electro Scientific Industries, Inc. (115)182
- Batch Control—A Structured Approach, Gerald Parry-Hughes, Fisher Controls International (119)154
- Combination Thermocouple-Well, Paul Beckman, Paul Beckman Company (119)160
- Concurrent Processing, Paul Parsons, Honeywell IPCD (118)176
- Differential Viscometer, Max Haney, Viscotek Corp. (115)195
- Distributed Process Control For Small Systems, Andrew Reinhardt, Data Acquisition Systems, Inc. (116)162
- Evaluating Digital Thermometers, John P. Atkins, Atkins Technical Inc. (118)188

KEY

Number in parenthesis is issue number; other number is page number.

- (117)100 = Issue 117, Page 100
- Issue 115 = February, 1986
- Issue 116 = April, 1986
- Issue 117 = June, 1986
- Issue 118 = September, 1986
- Issue 119 = October, 1986
- Issue 120 = December, 1986

- Fault Tolerant Control, John H. Wensley, August Systems (118)149
- Flow Measurement Using Field Flow Computers, David R. Mesnard, Dietrich Standard Corporation (120)156
- Flow Terminology—Non Standardization Leads To Confusion, Donald Ginesi, Taylor Instruments (115)159
- Infrared Analysis, Archer G. Fitch, Westinghouse, Combustion Control Division (119)151
- Instrument Management Software, Ken Netzel, Kenonic Controls, Ltd. (116)160
- Lethal Voltages In Ion-Gauge Vacuum Systems, Charles Morrison, Ph.D., Granville Phillips Company (120)128
- Level & Leak Sensing By Adsorption, Vagn M. Andersen, Spearhead Technology, Inc. (115)190
- Machine Vision, Dr. Hiro Kawamoto, Sony Industries (116)173
- Microcomputer Standards, Charles E. Neblock, Bradley University (119)146
- On-The-Road Break Testing, Gene Seaman, Daytronic Corporation (116)158
- Operating Cost of Control Systems, Eugene F. Holen, Conameter Corporation (116)170
- Operator Station Design, H. J. Charwat, Siemens (116)176
- Oscillation Viscometer, J. V. Fitzgerald & F. J. Matusik, Nametre Company (117)175
- Power Line Transient Suppressors, Norman A. Ackerman, Perma Power Electronics, Inc. (120)147
- Pressure Measurement Of Hot Fluids, Edwin N. Kaufman (115)194
- Pressure Measured By Color, Bruno Strzelewicz, G. T. Technology (117)174
- Preview Control, Dr. C. W. De Silva, Carnegie-Mellon University and R. Fukumura, Mitsubishi Chemical Industries (117)165

1986 ANNUAL INDEX Continued

- Programmable Control With The PC of The Future, Frank Wiley, Simens Allis Automation (115)164
- Rack and Pinion Actuators—Small Is Smart, Wayne Ulanski, El-O-Matic U.S.A. (116)167
- Remote Data Acquisition With The PC, John Bassett-Smith (118)173
- Rent, Lease or Buy?, Robert E. Laing, U.S. Instrument Rentals (119)170
- Resistive Level Sensors, Albert D. Ehrenfried, Metritape, Inc. (117)180
- Sharp Traces From Strip-Chart Recorders, Edwin N. Kaufman (117)172
- Single-Chip Thermocouple Amplifier/Alarm, Dennis Wilson and Charles Whiting, Analog Devices, Inc. (000)000
- Temperature Calibration, John P. Tavenor, Isothermal Technology Ltd. (118)160
- Temperature Measurement & Control, Denis Warmouth, Kent Industrial Measurements Limited (115)184
- Temperature Transducer Calibration Baths, Alvin B. Kaufman, P.E. (115)188
- Thermocouple, RTD or Solid State Junction?, Edward R. Stroik, Tudor Technology (118)166
- The Complete Control System, Ralph Waite, Allen-Bradley, Industrial Computer Division (117)183
- The Rotameter, Chet S. Ross, Wallace & Tiernan Div., Pennwalt Corp. (120)134
- The Shear-Pin Force Transducer, Alexander Yorgiadis, Strainert Company (119)173
- Transition Logic For Control and Event Detection, Pierre Dersin (Transimatics), Jean Florine (Universite Libre de Bruxelles) and Pierre Gallet (Indata S.A.) (119)161
- Ultrasonic Impeller Flowmeter, James D. Baird, Baird Controls, Inc. (117)187
- Understanding Power-Line Disturbances, Edward Cooper (115)176
- Valve and Flow Element Sizing, Ken Netzel, Kenonic Controls, Ltd. (120)144
- Vibration Sensing, Lee Elswood, Transamerica Delaval (118)183
- Aronson, Milton H., Personal Computing, Part 4—Comparing the 8080, Z80 and 6800 Microprocessors (115)150
- Aronson, Milton H., Personal Computing, Part 6—The Operating System (116)125
- Aronson, Milton H., Ten Basic Concepts For Science and Engineering (116)144
- Aronson, Milton H., Personal Computing, Part 7—CP/M File Names, Built-In Commands And Transient Commands (117)138
- Aronson, Milton H., Ten Basic Concepts For Science and Engineering, A Part 2—The C/L Concept (117)148
- Aronson, Milton H., Ten Basic Concepts For Science and Engineering, Part 3—The Log Concept (118)144
- Aronson, Milton H., Personal Computing, Part 8—Getting Started (118)146
- Aronson, Milton H., Computer Principles & Practice—Part 9 (119)131
- Aronson, Milton H., 10 Basic Concepts For Science and Engineering, Concept 9—Binary Numbers (119)138
- Aronson, Milton H., Personal Computing, Part 10—Cursor Control (120)122
- Aronson, Milton H., 10 Basic Concepts For Science and Engineering, Concept 10—Standard Deviation (120)122
- Atkins, John P., Atkins Technical Inc., Evaluating Digital Thermometers (118)188
- Baird, James D., Baird Controls, Inc., Ultrasonic Impeller Flowmeter (117)187
- Bassett-Smith, John, Solatron, Remote Data Acquisition With The PC (118)173
- Beckman, Paul, Paul Beckman Company, Combination Thermocouple-Well (119)160
- Charwat, H. J., Siemens, Operator Station Design (116)176
- Cooper, Edward, Power Matic, Inc., Understanding Power-Line Disturbances (115)176
- Coryell, Robert W., Soltec Corporation, Analog Recording With Dot-Matrix Printing (116)155
- De Silva, Dr. C. W., Carnegie-Mellon University and R. Fukumura, Mitsubishi Chemical Industries, Preview Control (117)165
- De Silva, Dr. Clarence, Carnegie-Mellon University, Process Control, Part 12—Control System Analysis (119)118
- Dersin, Pierre, Transimatics, Transition Logic For Control And Event Detection (119)161
- Dooley, Jr., Philip G., Dynage Controls, Inc., Data Acquisition And Pid Control With A Stand-Alone Front-End System (119)180
- Ehrenfried, Albert D., Metritape, Inc., Resistive Level Sensors (117)180
- Elswood, Lee, Transamerica Delaval, Vibration Sensing (118)183
- Evans, R. C., Budenberg Gauge Company, Ltd., Achieving Provable Accuracy In Deadweight (120)139
- Fitch, Archer, G., Westinghouse, Combustion Control Division, Infrared Analysis (119)151
- Fitzgerald, J. V. and F. J. Matusik, Nameter Company, Oscillation Viscometer (117)175
- Florine, Jean, Universite Libre de Bruxelles, Transition Logic For Control And Event Detection (119)161
- Gallet, Pierre, Indata S.A., Transition Logic For Control And Event Detection (119)161
- Garrett, Carl J., Coen Company, Inc., Flame Scanning (115)198
- Ginesi, Donald, Taylor Instruments, Flow Terminology—Non Standardization Leads To Confusion (115)159
- Haney, Max, Viscotek Corp., Differential Viscometer (115)195
- Holben, Eugene F., Conameter Corporation, Operating Cost of Control Systems (116)170
- Kawamoto, Hiro Dr., Sony Industries, Machine Vision (116)173
- Kaufman, Edwin N., Sharp Traces From Strip-Chart Recorders (117)172
- Kaufman, Edwin N., Pressure Measurement of Hot Fluids (115)194
- Kaufman, Alvin B., Temperature Transducer Calibration Baths (115)188
- Laing, Robert E., U.S. Instrument Rentals, Rent Lease Or Buy? (119)170
- Matusik, F. J. and J. V. Fitzgerald, Nameter Company, Oscillation Viscometer (117)175
- McKerlie, T. H., International Sensor Technology, SCMA, Carbon Monoxide Control (117)188
- Mesnard, David R., Dieterich Standard Corporation, Flow Measurement Using Field Flow Computers (120)156
- Morrison, Charles, Ph.D., Granville Phillips Company, Lethal Voltages In Ion-Gauge Vacuum Systems (120)128
- Neblock, Charles E., Bradley University, Microcomputer Standards (119)146
- Netzel, Ken, Kenonic Controls Ltd., Instrument Management Software (116)160
- Netzel, Ken, Kenonic Controls, Ltd., Valve And Flow Element Sizing (120)144

AUTHORS

- Ackerman, Norman A., Perma Power Electronics, Inc., Power-Line Transient Suppressors (120)147
- Andersen, Vagn M., Spearhead Technology, Inc., Level & Leak Sensing By Adsorption (115)190

O'Brien, David, Dimensional Metrology, Part 1—History of Measurement Standards (115)133

BUYERS GUIDE

Accelerometers Vibration Meters (120)

Analog Controllers, Meter Relays (115)206

Analog Test Meters, Analog Panel Meters (115)224

Anemometers (117)194

Annunciators (119)184

Bimetallic Thermometers (119)193

Bourdon Pressure Gauges (120)

Bridges/Potentiometers (117)204

Capacitive Pressure Transducers (117)209

Color Graphics (118)200

Control Valves—Butterfly/Ball/Rotary Stem (116)187

Control Valves—Globe/Plug/Pinch/Needle/Gate (115)234

Control Valves—Regulator/Safety/Relief Check (117)213

Control Valves—Solenoid (118)209

Counters/Tachometers (116)201

Deadweight Testers/Tensile Testers (120)

Density/Specific Gravity (119)201

Differential Pressure Flowmeters (118) 223

Digital Panel Meters, Digital Voltmeters, Digital Multimeters (120)

Digital Pressure Transducers (116)220

Distributed Controllers (116)224

Electromagnetic Flowmeters (116)243

Encoders, Resolvers, Digitizers (118)232

Filled-Systems Thermometers (118)247

Filters (118)254

Flow Switches (117)232

Galvanometer Recordres (116)249

Gas Detectors & Analyzers (119)210

Integrated Circuit (IC) Thermometers (115)249

Light Beam Recorders (118)261

Level Measurement & Control (116)256

Linear Array Recorders (117)236

Lock-In Amplifiers (116)283

Magnetic Measurements, Materials, Shielding (117)238

Manometers (119)222

Mass Flowmeters (118)263

Mass/Force Measurement, Load Cells (119)230

Motion Control Systems, Robotics (119) 246

Motor Controllers (115)271

Moisture/Humidity Instruments (115)252

Open-Channel Flowmeters (120)

Piezoelectric Pressure Transducers (119)259

Positive Displacement Flowmeters (119) 264

Potentiometric Pressure Transducers (115)283

Potentiometric (Servo) Recorders (120)

Power Measurement and Analysis (120)

Pressure Switches (119)269

Programmable Controllers (118)273

Proximity Sensors/Switches—Inductive, Magnetic (120)

Proximity Sensors/Switches—Optical/Photoelectric Laser (119)275

Radiation Thermometers/Pyrometers (115) 286

Recorder Charts, Pens, Accessories (117)245

Relative & LVDT Pressure Transducers (118)294

Rotameters/Variable-Area Flowmeters (118)298

RTDs, Thermistors (116)285

1986 ANNUAL INDEX Continued

Rupture Discs (119)282
Strain-Gage & Piezoresistive Transducers (116)304
Spectrum Analyzer (117)250
Standards/Simulators/Calibrators (118)307
Temperature-Sensitive Paint, Crayons, Lacquers (120)
Tape Recorders (119)285
Thermocouples & Accessories (117)256
Timing & Programming (116)318
Torque Measurements (115)302
Transient Protectors/Line Conditioners (120)
Transmitters (117)279
Turbine Flowmeters (115)310
Ultrasonic Flowmeters (119)293
Vacuum Equipment (120)
Venturi Flowmeters And Valves (119)302
Viscometers (117)298
Vortex Flowmeters (117)304
X-Y Recorders (119)305

MISCELLANEOUS

Book News (116)180, (117)164, (118)198, (120)000
Calendar of Events (115)142, (116)137, (117)150, (118)165, (119)135, (120)000
Industry News (116)133, (117)133, (118)182, (119)117, (120)000
Market Analysis (115)205, (116)186, (117)193, (118)199, (119)183, (120)000
Show Highlights: Pittsburgh Conference (115), 58, 1986 IPC Conference and Exposition (115); 76, Control Expo (116), 62, Electro (116), 70, ISA '86 (118), 48.

OPINIONS

Advantages of Direct Writing Recorders, Edward G. Fallon, Esterline Angus Instrument Corp. (116)255
Aerospace Control Valve Industry Faces a Growing Paper-Work Problem, Bernard Quail, Valcor Engineering (118)222
As Size and Cost Decrease, Life and Reliability Increase, John Albrecht, Valcor Engineering (118)210
The Batch Chemical Industry Needs Automation, Herman Bozenhardt, Fischer & Porter (116)242

Bimetal Thermometers-Still Supreme in Ruggedness, Reliability and Cost, Andy Germanow, Tel-Tru Manufacturing Co. (119)200

Calibration of Flow Sensors by Tow Carriage, Lawrence B. Marsh, Marsh-McBirney, Inc. (116)245

Some Advantages of Capacitance Pressure Transducers are Unique to the Technique, John Turner, Rosemount, Inc. (117)210

Careful Performance Certification Can Pay Big Dividends, Cliff Lewis, General Eastern (115)271

CIM Suppliers Will Lead the Factory Automation Industry, Ravi Ghai, American Cimflex Corp. (119)249

Control Market is Changing, Mike Seshier, Eurotherm Corp. (115)221

Conventional Magnetizing Methods May Not Be Adaptable To Newer Magnetic Materials, Earle S. Seely, Dowty RFL Industries Inc. (117)239

Cost-Conscious Engineers Are Needed, Chris Sole, DAS, Inc. (116)240

Counters Need Data Transmission Standards, Charles B. Levinski, Hecon Corp. (116)218

Designs That Improve Performance of Thermocouples Used Under Severe Service, Douglas E. Frank, Thermo Electric (117)270

Developments in Radiation Thermometry, Matt Guerrieri, Raytek, Inc. (115)301

The Digital Panel Meter Continues to Evolve, Harold Weiss, Newport Electronics, Inc. (120)216

Doppler Flowmeter Acceptance is Growing, William T. Smith, Polysonics, Inc. (119)300

Doppler Flowmeter No Longer Requires Entrained Solids, Brent J. Baird, Dynasonics, Inc. (119)299

Doppler Flowmeter Technology in the Second Decade, A.N. Dellerson, Manning Technologies, Inc. (119)301

DP Level Measurement and Control, Ted Williams, Magnetrol International (116)266

Electric Control Valves are Needed for Digital Control Systems, Kevin Speed, Jordan Valve Div., Richard Industries (115)248

The Factory Floor of the Future, Joe Bartoletti, General Electric (119)248

Factory Rests on its CAL Lab, Don Dalton, John Fluke Mfg. Co. (118)316

False Alarms and Malfunctioning Protection Equipment are a Deadly Combination, Robert L. Heron, Trip-A-Larm Corp. (119)186

Galvanometers Can Compete, Peter E. Schwartz, General Scanning, Inc. (116)250

Galvanometric Stripchart Recorders, Claus J. Joens, Elnik Instruments, Inc. (116)250

How to Protect Your RTD Investment, Douglas E. Frank, Thermo Electric Co. (116)287

Inaccuracies in Density Measurement are Usually Not the Fault of the Densitometer, Nghieu Q. Pham, UGC Industries (119)208

Infrared Telemetry Improves Infrared Thermometry, Charles E. "Gene" Everest, Everest Interscience Inc. (115)300

Integrating Process and Business Data Base, Richard Shobe, Fisher Controls International, Inc. (116)289

Intelligent Counters and Tachometers, Donald W. McGuire, Red Lion Controls (116)217

Manometers and Digital Pressure Indicators Have their Roles, Russ Arslanian, Meriam Instrument (119)223

Market Needs Dictate Instrument Performance, Dick Verville, LFE Instruments Div. (115)222

Mass Flow Controller Performance Improvements Led Semiconductor Industry Advances, Joseph Masucci, Unit Instruments (118)272

Motion Control System Designers Look to Resolvers for Increased Reliability, Gene Pinto, ILC Device Corp. (118)246

Motor Speed Controller Goes High Tech, Gilbert Knauer, KB Electronics, Inc. (115)274

Multichannel Recorders are Changing, Gary A. Purser, Soltec Corp. (120)225

New Level-Measurement Technology, Gary Murray, Fisher Controls International, Inc. (116)280

New Markets for Magmeters Pose Problems, John Green, Endress & Hauser (116)245

The Nicrosil/Nisil Type N Thermocouple, H.L. Daneman, HLD Associates (117)262

Nuclear Gaging Increases Quality and Safety, James L. Hardin, Texas Nuclear (116)276

PC Programming Language Standards are on the Horizon, Robert R. Lyons, Telemecanique Inc. (118)275

Plastic Solenoid Valves in Tune with High Tech Advances, G. Clifford Geib, Plast-O-Matic Valves (118)220

Potentiometric Servo Recorders—A Mature and Stable Market, Andy Zeidler, BBC Metrawatt/Goerz (120)235

Power and Precision Come to Nuclear Density Systems, Walt Boyes, Texas Nuclear (119)209

Power Disturbance Monitoring, Where is the Need?, Edward Cooper, Power-Science Industries (120)269

The Pressure Sensor Market, Ernie Lutfy, Data Instruments Inc. (116)306

Pressure Transducers Face New Market Demands, Jeff Gartner, Paine Corp. (116)306

The Problem of Relative Humidity Field Calibration Has Been Solved, John A. Kussmann, Vaisala, Inc. (115)269

Problems Facing the PC Industry, Dennis M. Tompkins, Gould Inc. (118)273

Programmable Controllers Face Problems, Tom Marks, Honeywell IPCD (116)238

Proximity Sensors, Andrei Moldoveanu, Telemecanique Inc. (120)248

Quartz Digital Pressure Transducers, Jerome M. Paros, Paroscientific, Inc. (116)225

New Recorder Technology Facilitates Control Systems Updating and Retrofit Projects, Ernie Moffet, Kent Process Control Inc. (120)225

Regulators, Not What They Used to Be, Don Day, Fisher Controls International (117)215

Simplicity Vs. Sophistication—What is the Technological High Road?, Chet Ross, Wallace & Tiernan, Div. Pennwalt (118)300

Simplification in the Control Room, Douglas Cannon, Bailey Controls (116)241

Software Will Create More Powerful DMMs, Gregory R. Bigadza, Keithley Instruments (120)198

Solenoid Valve Trends in the Nuclear Industry, Ravi Rustagi, Valcor Engineering (118)221

Modern Spectrum Analyzers Provide Diversified Performance, Roger C. Koch, Scientific Atlanta, Inc. (117)250

The State of the Transmitter Industry, Mark J. Clifford, Statham Div., Solartron Transducers (117)285

TC Technology is Improving—By Evolution, Kenneth Norris, Hades Manufacturing (117)263

Thermocouples, The Unsung Heroes of Measurement & Control, Don Toenshof, Engelhard Corp. (117)262

The Three-Tier Transmitter Market is Causing Re-Examination of Marketing Strategy, Steve Boisvert, Ametek, Controls Div. (117)297

Trace Moisture Sensor Uses Electrolysis, Vincent B. Cortina, EG&G Environmental Equipment (115)270

Transmitter Trends, Stephen L. Seabury, Bailey Controls (117)284

Trends in Timing Technology, M.R. (Mike) Bhojwani, Amerace Corp. (116)319

Turbine Meters Can Handle Tough Liquids, Steve Klak, Daniel Industries (115)312

Turbine Meters Challenge Flow Calibration Standards, Chris Smith, ITT Barton (115)311

Turbine Meters Change Petroleum Marketing, Allen Deal, Brooks Instrument Div. (115)311

Turbine Meter Design, Gerald C. McIntosh, Flow Technology Inc. (115)311

Turbine Meters Permit Batch Operations With $\pm 0.05\%$ Accuracy, Jack D. Harshman, Daniel Industries (115)312

Valve Manufacturers Adapt to a New Competitive Climate With New Valves and Marketing Techniques, Alex C. Papianou, Dresser-Masoneilan (115)247

Voice Annunciation Combined With Telephone—A New Dimension for Annunciation, Douglas E. Seeley, Seekirk, Inc. (119)185

Vortex Flowmeters are Becoming a Standard, John Kopp, P.E., The Foxboro Co. (117)308

What is Happening at the Various Levels of Level?, Geoff Ziman, ZiTech Instrument Corp. (116)267

When Times Get Rough, Edward R. Stroik, Tudor Technology (117)270

AUTHORS (Opinions)

Albrecht, John, Valcor Engineering, As Size and Cost Decrease, Life and Reliability Increase (118)210

Arslanian, Russ, Meriam Instrument, Both Manometers and Digital Pressure Indicators Have Their Roles (119)223

Baird, Brent J., Dynasonics, Inc., The Doppler Flowmeter No Longer Requires Entrained Solids (119)299

Bartoletti, Joe, General Electric, The Factory Floor of the Future (119)248

Bhojwani, M.R. (Mike), Amerace Corp., Trends in Timing Technology (116)319

Bigadza, Gregory R., Keithley Instruments, Software Will Create More Powerful DMMs (120)198

Boisvert, Steve, Ametek, Controls Div., The Three-Tier Transmitter Market is Causing Re-Examination of Marketing Strategy (117)297

Boyes, Walt, Texas Nuclear, Power and Precision Come to Nuclear Density Systems (119)209

Bozenhardt, Herman, Fischer & Porter, The Batch Chemical Industry Needs Automation (116)242

Cannon, Douglas, Bailey Controls, Simplification in the Control Room (116)241

Clifford, Mark J., Statham Div., Solartron Transducers, The State of the Transmitter Industry (117)285

Cooper, Edward, Power-Science Industries, Where is the Need for Power Disturbance Monitoring? (120)269

Cortina, Vincent B., EG&G Environmental Equipment, A New Trace Moisture Sensor Uses Electrolysis (115)270

Dalton, Don, John Fluke Mfg. Co., The Factory Rests on its CAL Lab (118)316

Daneman, H.L., HLD Associates, The Nicrosil/Nisil Type N Thermocouple (117)262

Day, Don, Fisher Controls International, Regulators, Not What They Used to Be (117)215

Deal, Allen, Brooks Instrument Division, Turbine Meters Change Petroleum Marketing (115)311

Dellerson, A.N., Manning Technologies, Inc., Doppler Flowmeter Technology in the Second Decade (119)301

Everest, Charles E. "Gene", Everest Interscience Inc., Infrared Telemetry Improves Infrared Thermometry (115)300

Fallon, Edward G., Esterline Angus Instrument Corp., Advantages of Direct Writing Recorders (116)255

Frank, Douglas E., Thermo Electric Co., How To Protect Your RTD Investment (116)287

Frank, Douglas E., Thermo Electric Designs That Improve Performance of Thermocouples Used Under Severe Service (117)270

Gartner, Jeff, Paine Corp., Pressure Transducers Face New Market Demands (116)306

Geib, G. Clifford, Plast-O-Matic Valves, Plastic Solenoid Valves in Tune with High Tech Advances (118)220

1986 ANNUAL INDEX Continued

- Germanow, Andy, Tel-Tru Manufacturing Co., Bimetal Thermometers—Still Supreme in Ruggedness, Reliability and Cost (119)200
- Ghai, Ravi, American Cimflex Corp., CIM Suppliers Will Lead the Factory Automation Industry (119)249
- Green, John, Endress & Hauser, New Markets for Magmeters Pose Problems (116)245
- Guerrieri, Matt, Raytek, Inc., Developments in Radiation Thermometry (115)301
- Hardin, James L., Texas Nuclear, Nuclear Gaging Increases Quality and Safety (116)276
- Harshman, Jack D., Daniel Industries, Turbine Meters Permit Batch Operations With $\pm 0.05\%$ Accuracy (115)312
- Heron, Robert L., Trip-A-Larm Corp., False Alarms and Malfunctioning Protection Equipment are a Deadly Combination (119)186
- Joens, Claus J., Elnik Instruments, Inc., Galvanometric Stripchart Recorders (116)250
- Klak, Steve, Daniel Industries, Now Turbine Meters Can Handle Tough Liquids (115)312
- Knauer, Gilbert, KB Electronics, Inc., Motor Speed Controller Goes High Tech (115)274
- Koch, Rogert C., Scientific Atlanta, Inc., Modern Spectrum Analyzers Provide Diversified Performance (117)250
- Kopp, John, The Foxboro Co., Vortex Flowmeters Are Becoming A Standard (117)308
- Kussmann, John A., Vaisala, Inc., The Problem of Relative Humidity Field Calibration Has Been Solved (115)269
- Lewis, Cliff, General Eastern, Careful Performance Certification Can Pay Big Dividends (115)271
- Levinski, Charles B., Hecon Corp., Counters Need Data Transmission Standards (116)218
- Lutfy, Ernie, Data Instruments Inc., The Pressure Sensor Market (116)306
- Lyons, Robert R., Telemecanique Inc., PC Programming Language Standards Are on the Horizon (118)275
- Marks, Tom, Honeywell IPCD, Programmable Controllers Face Problems (116)238
- Marsh, Lawrence B., Marsh-McBirney, Inc., Calibration of Flow Sensors by Tow Carriage (116)245
- Masucci, Joseph, Unit Instruments, Mass Flow Controller Performance Improvements Lead Semiconductor Industry Advances (118)272
- McGuire, Donald W., Red Lion Controls, Intelligent Counters and Tachometers (116)217
- McIntosh, Gerald C., Flow Technology Inc., New Turbine Meter Design (115)311
- Moffet, Ernie, Kent Process Control Inc., New Recorder Technology Facilitates Control Systems Updating and Retrofit Projects (120)225
- Moldoveanu, Andrei, Telemecanique Inc., Common Sense Tips for Applying Proximity Sensors (120)248
- Murray, Gary, Fisher Controls International, Inc., New Level-Measurement Technology (116)280
- Norris, Kenneth, Hades Manufacturing, TC Technology is Improving—By Evolution (117)263
- Papianou, Alex C., Dresser-Masoneilan, Valve Manufacturers Adapt to a New Competitive Climate With New Valves and Marketing Techniques (115)247
- Paros, Jerome M., Paroscientific, Inc., Quartz Digital Pressure Transducers (116)225
- Pham, Nghieu Q., UGC Industries, Inaccuracies in Density Measurement are Usually Not the Fault of the Densitometer (119)208
- Pinto, Gene, ILC, Device Corp., Motion Control Systems Designers Look to Resolvers for Increased Reliability (118)246
- Purser, Gary A., Soltec Corp., Multichannel Recorders are Changing (120)225
- Quail, Bernard, Valcor Engineering, The Aerospace Control Valve Industry Faces a Growing Paper-Work Problem (118)222
- Ross, Chet, Wallace & Tiernan, Div. Pennwalt, Simplicity Vs. Sophistication—What is the Technological High Road? (118)300
- Rustagi, Ravi, Valcor Engineering, Solenoid Valve Trends in the Nuclear Industry (118)221
- Schwartz, Peter E., General Scanning, Inc., Galvanometers Can Compete (116)250
- Seabury, Stephen L., Bailey Control, Transmitter Trends (117)284
- Seeley, Douglas E., Seekirk, Inc., Voice Annunciation Combined With Telephone—A New Dimension For Annunciation (119)185
- Seely, Earle S., Dowty RFL Industries Inc., Conventional Magnetizing Methods May Not Be Adaptable To Newer Magnetic Materials (117)239
- Sesher, Mike, Eurotherm Corp., The Control Market is Changing (115)221
- Shobe, Richard, Fisher Controls International, Inc., Integrating Process and Business Data Base (116)289
- Smith, Chris, ITT Barton, Turbine Meters Challenge Flow Calibration Standards (115)311
- Smith, William T., Polysonics, Inc., Acceptance of Doppler Flowmeters is Growing (119)300
- Sole, Chris, DAS, Inc., Cost-Conscious Engineers are Needed (116)240
- Speed, Kevin, Jordan Valve Div., Richard Industries, Electric Control Valves are Needed for Digital Control Systems (115)248
- Stroik, Edward R., Tudor Technology, When Times Get Rough (117)270
- Toenshof, Don, Engelhard Corp., Thermocouples, The Unsung Heroes of Measurement & Control (117)262
- Tompkins, Dennis M., Gould Inc., Problems Facing the PC Industry (118)273
- Turner, John, Rosemount, Inc., Some Advantages of Capacitance Pressure Transducers are Unique to the Technique (117)210
- Verville, Dick, LFE Instruments Div., Market Needs Dictate Instrument Performance (115)222
- Weiss, Harold, Newport Electronics, Inc., The Digital Panel Meter Continues to Evolve (120)216
- Williams, Ted, Magnetrol International, The Success of DP Level Measurement and Control (116)266
- Zeidler, Andy, BBC Metrawatt/Goerz, Potentiometric Servo Recorders—A Mature and Stable Market (120)235
- Ziman, Geoff, Zi-Tech Instrument Corp., What is Happening at the Various Levels of Level? (116)267
